Statement in relation to 2022 AGM results

Following the AGM of the Company held on 3 May 2022 (the "AGM"), and in line with Provision 4 of the UK Corporate Governance Code, the Board of Plus500, a global multi-asset fintech group, has released this statement to provide an update to shareholders on the actions taken following the outcome of certain resolutions at the AGM.

At the AGM, three of the resolutions which were passed had more than 20% of votes cast against them. These resolutions related to an advisory vote on the Directors' Remuneration Report, the re-election of one of the Board’s Independent Non-Executive Directors and an allotment of shares to the Chair of the Board.

Members of the Board engaged with several shareholders and shareholder advisory bodies to fully understand their perspective on these resolutions, and on the Group’s overall framework for governance and remuneration. As a result, the Board believes it has a good understanding of the rationale regarding the votes cast against and where appropriate will take these views into consideration in the Group’s future approach to these areas.

All other resolutions at the AGM were passed by a majority of at least 80% of votes cast in favour, with a number of these resolutions relating to remuneration increases of the Chair and the Independent Non-Executive Directors. This support demonstrates shareholders’ overall on-going recognition of the importance of providing appropriate incentives to attract and retain high quality individuals to the Board whose stewardship is helping to drive the value of Plus500’s business as the Group successfully continues to deliver against its strategic objectives.

The Board remains fully committed to achieving the highest governance standards and will continue to engage regularly with shareholders and to consider their views in its decision making.
